

Errata for “Games Rivals Play: Terrorism in International Rivalries.”

Due to a data management error, some observations were missing from the 1968-2002 period reported in JOP.

The data contained in the companion .dta file include the full 1968-2002 period with the models estimated exactly the same way as they were in the JOP paper. The raw results (coefficients, standard errors, p-values) are of course different than what is reported in the print version. However, the results for rivalry remain substantively the same (same sign; statistically significant). In some cases, the results are stronger than those reported in the JOP paper.

The first two tables below provide the corrected information. The next two tables provide the original results reported in the main article.

Correct Tables

Corrected Table 1. Negative Binomial Models of Transnational Terrorist Attacks using Dyads 1968–2002.

VARIABLES	(1) Terror Counts 1	(2) Terror Counts 2	(3) Terror Counts 1	(4) Terror Counts 2
Rivalry (KGD)	1.448*** (0.237)	1.344*** (0.181)	0.943*** (0.225)	0.724*** (0.159)
Joint Democracy	1.078*** (0.192)	0.915*** (0.134)	0.149 (0.198)	-0.098 (0.129)
Log(Capability Ratio)	-0.058 (0.052)	-0.331*** (0.026)	0.143 (0.099)	-0.574*** (0.050)
Past Terror (Origin)			0.314*** (0.053)	0.676*** (0.038)
Past Terror (Target)			0.706*** (0.072)	0.634*** (0.041)
Cold War			-0.659*** (0.122)	-0.372*** (0.077)
Interstate War (Origin)			0.517*** (0.153)	0.242** (0.120)
Interstate War (Target)			-0.132 (0.192)	0.468*** (0.090)
Contiguity	0.934*** (0.232)	-0.034 (0.159)	1.760*** (0.209)	0.901*** (0.144)
Civil War (Origin)			1.368*** (0.192)	0.992*** (0.125)
Civil War (Target)			-0.427** (0.190)	-0.352*** (0.119)
Constant	-4.950*** (0.209)	-3.587*** (0.107)	-6.171*** (0.286)	-5.321*** (0.147)
Observations	65,538	65,538	65,538	65,538

In Models 1 and 3: origin country = nationality of the terrorists; target country = location where event occurred. In Models 2 and 4, target country = nationality of the victims. KGD=Klein, Goertz, and Diehl (2006) rivalry. Robust standard errors in parentheses clustered on dyad; *** p<0.01, ** p<0.05, * p<0.1.
